SUBJECT: Suspension of Livestock Risk Protection 60-Day Ownership Requirement
Due to Severe Drought

BACKGROUND:

Due to the continuing severe drought conditions impacting many parts of the nation, producers are struggling to find adequate supplies of feed or forage, causing them to market their livestock sooner than anticipated.

The Livestock Risk Protection (LRP) Basic Provisions requires livestock to be owned by the producer within the last 60 days of the insurance period or the endorsement is terminated with premium owed, but no indemnities payable.

The 60-day ownership requirement assures the producer maintains an insurable interest in the livestock but does not affect actuarial performance because insurance coverage and losses are determined from commodity futures or cash markets.

ACTION:

To assist producers in managing drought conditions, Approved Insurance Providers, at their sole discretion, may waive the 60-day ownership requirement for LRP Specific Coverage Endorsements (SCE) currently in effect as of June 9, 2023, subject to verification of proof of ownership. Proof of ownership can include sales receipts, kill sheets, or other documentation that verifies ownership during the insurance period, showing the date the livestock were sold or slaughtered. The waiver allows producers to market their livestock as necessary while the policy continues in force.

DISPOSAL DATE:

December 31, 2024
